★★★★★ A MUST FOR ONLINE DATERS!

By Debra Faith

OK LADIES, LISTEN UP.... if you are doing online dating, or if you are thinking about it but not sure if it's for you, then you seriously need to read this book. This book helped me to beautifully recreate my profile and the results have been phenomenal!! I am not exaggerating. Since I made the changes I have had 5 'high quality' dates in one week and the messages keep coming!! Many of these guys specifically compliment and reference things I have written that this book helped me 'soften' to make more appealing to the male mind while still being true to who I am. As a love and relationship coach myself, I thought I had a pretty good working knowledge of all this stuff, but let's face it, the hardest thing to do sometimes is to write about yourself in a 'selling' capacity which is what profiles are. I strongly encourage you to let Dave Elliott's book help you to find the love of your life!

★★★★★ The book to get when looking for that special someone!

Very helpful book. It is nice to hear things from a guys perspective. Has lots of places to write down your thoughts and work through exercises.

“After a year of self-imposed singledom, I was ready to get back into the game but knew I needed to do something different this time round to attract the kind of man I wanted in my life. That's where Dave came in. Among the million other things, Dave taught me that it was important to let things unfold naturally and to let men prove their worth to me. So it wasn't completely serendipitous when only a few months later I met my current partner who I am madly in love with. **Dave's advice works quickly!**”
